50<sup>th</sup>  
ANNIVERSARY

scuba | snorkeling | freediving | swimming | spring 2021

# *A fantastic italian story*

1971

Marco Arata and Attilio Rapallini, true sea lovers just barely into their twenties, start small-scale production of pronged heads and spear heads from scratch and SEAC (Subacquea E Affini Carasco) is founded.

1975

The first logo is created and the first official SEAC catalog is published.

1980

Production of the first spring-loaded and sling spearguns starts.

1982

SEAC reaches another milestone with the manufacture of new wetsuits, including the legendary Privilege.

1985

The development and production of the legendary Asso speargun mark yet another important step for SEAC and the spearfishing world as a whole.

1988

Stefano Makula, a SEAC testimonial, reaches an incredible depth of -102 meters in variable weight freediving on the island of Giannutri and thus becomes world champion.

1989

Production expands with the new SEAC BCDs, including the Jump model.

1990

SEAC inaugurates its new plants in San Colombano Certenoli.

1993

A new adventure starts with in-house production of regulators.

1995

The first Extreme mask! 25 years old icon.

1999

In April, Nicola Brischigiario breaks a new scientific world record in distance freediving under ice (85m in 1'40") on Lake Verney, using SEAC equipment.

2001

SEAC designs and manufactures a revolutionary BCD: the Pro2000.

frame to  
back  
system

2004

The second generation of SEAC arrives when Daniele Arata joins the company.

2006

SEAC further expands its product range and divides it into different lines: SCUBA, Snorkeling, Freediving, Swimming.

2007

The Icaro BCD wins the RedDot Award Product Design 2007.

reddot award  
product design

2008

SEAC has a new in-house workshop built, dedicated to regulators, with state-of-the-art ANSTI machines and new-generation technologies.

2010

New models of the SCUBA and freediving fins are developed and produced and expand the SEAC range even further.

2012

Marco Maestri joined SEAC and launched the branch in the United States, SEAC USA Corp. in the City of New York. SEAC USA has relocated to Miami in 2015

2014

After meticulous research, SEAC develops its first range of LED torches, including the renowned "R" series.

2017

Design and manufacture start of the first full-face mask: Unica.

2018

The new Driver and Partner wrist-mount diving computers arrive on the market, followed by Action and Action HR.

2019

SEAC opens a department dedicated to plastic molding of masks and fins at its San Colombano Certenoli plant.

2021

# TERMS & CONDITIONS

This price list supersedes all previous lists. Prices are effective January 1<sup>st</sup> 2021 - December 1<sup>st</sup>, 2021. All indicated prices are subject to change at any time.

## SHIPMENT

- Goods are intended as delivered ex works. Goods will be shipped using the most appropriate means of transport.
- Even when goods are shipped free destination, they will travel at customer's risk.
- Any shortage or damage to the goods must be notified directly to the carriers.

## PACKING

- Free of charge

## DELIVERY

- The delivery terms indicated on the order sheet have to be intended as approximate.
- The order may be fulfilled in several consignments.
- Any cancellations of orders or remaining balances must be notified to SEAC® USA within 15 days from the order date, afterwards we will consider the order or the order balance as being automatically confirmed.

## CONDITIONS

- To assist in the orders preparation, we reserve the right to change the quantities, to bring them into line with standard packaging.

## PAYMENT

- Net 30 days with approved credit. Please pay oldest invoice first; indicate invoice and authorized dealer number on your check.
- COD available.
- We accept Visa, MasterCard and American Express drawn on U.S. bank.
- All payments are to be made in U.S. currency. For Credit Card payments the card must be drawn on U.S. bank, otherwise a 2% surcharge applies.
- A monthly service charge of 2% will be applied on invoices unpaid after the due date. In the event that this late charge exceeds the maximum permitted by applicable law, it shall be reduced to the legal maximum.
- In case of non-payment at the agreed due date, the interest on overdue payment will be charged at the current official rate of interest.
- Any complaints will not suspend the obligation of payment.
- Special conditions differing from those indicated herein must be confirmed in writing from SEAC® USA.

## SHIPPING TERMS

- Dealers receive free freight if order exceeds 1,500.00 within the Continental United States via best method.
- Past due accounts will not receive free freight.
- There will be a minimum shipping and handling fee of 5.00 for all parts orders.
- A service charge of \$ 12.75 will be assessed on orders of less than 100.00. This does not apply to orders for repair and/or replacement parts.
- A 30.00 service charge will be assessed for all returned checks or declined Credit Card charges.
- Freight Free Orders not paid within specified terms will constitute the billing of the freight charges that were originally not billed.
- SEAC® products may only be sold at agreed upon store locations. Change of name, ownership or address must be approved in writing by SEAC® USA, in order for you to continue as an authorized dealer of SEAC® USA.
- Possession of a price list does not constitute an offer to sell. SEAC® USA reserves the right to accept or reject all orders.

## RETURN AND REPLACEMENT

- Defective merchandise may not be returned without the consent of SEAC® USA.
- Authorized returns must be freight prepaid. All returns must be authorized by SEAC® USA and be accompanied by an RA number and letter of instructions.
- All claims must be made within 10 days after receipt of merchandise, including shortages, or the claim shall be denied.
- All shortage claims must be done in writing and acknowledged by the SEAC® USA office in Miami, FL. All shortage claims require the original shipping cartons from SEAC® to be in the possession of the consignee. Therefore, cartons may not be discarded until an investigation is provided by the freight carrier or SEAC® USA.
- Any return without an RA number on the outside of the package will be refused.
- Returns may only be submitted from authorized SEAC® USA facilities. These facilities may not authorize returns to SEAC® USA by consumers.
- Any return unclaimed after six months shall be destroyed.
- A 25% re-stocking fee shall be placed on authorized returns of saleable merchandise and on refused shipments.
- Freight will be billed on refused shipments.
- All resalable merchandise must be returned in its original packaging and condition.
- Any defaced products will be subjected to a minimum 50% restocking fee. However, SEAC® USA reserves the right to refuse credit on any returned merchandise.
- Returns will not be authorized for merchandise shipped more than 60 days prior to the request date for return.
- Discontinued items may not be returned for credit.

## WARRANTY

- SEAC® warrants all products to be free of defects at the time of shipment and for the periods outlined in the enclosed warranty, or as otherwise specified within warranty coverage included with products.
- All SEAC® USA products carry a one year warranty against manufacturers defects, unless otherwise specified.
- SEAC® USA maintains the right to void any warranty within the one year period if product misuse/abuse is determined.
- Warranty is only valid to original purchasers of SEAC® products purchased in the United States of America with a Proof of Purchase, and they are not transferable or valid on used products.
- Products purchased through non-authorized facilities will not be covered under any SEAC® Warranty.
- Any products that prove to be defective within the warranty period may be returned prepaid to SEAC® USA. SEAC® USA must be contacted prior to the return and an RA# number will be issued. SEAC® will repair or replace the product and return it prepaid.
- SEAC® USA reserves the right to substitute the product with a product of equal or higher value.

## AUTHORIZED DEALERS

Dealer must maintain a retail storefront and offer all of the following services:

- Scuba certification.
- Sales and service of SEAC® products, including warranty repair.
- Access to air fills.
- All authorized dealers of SEAC® products are required to maintain yearly minimum purchases of 5000. In the event of a dealer not meeting these requirements, SEAC® USA maintains the right to discontinue its business relationship with said dealer.
- All SEAC® products displayed on a Dealer's website must be in stock and on display in the retail store.
- Dealer must notify SEAC® USA in writing of it's desire to market SEAC® products via e-commerce. SEAC® USA will review the request and respond accordingly within two weeks. A written approval from SEAC® USA is required prior to offering SEAC® products for sale via e-commerce.
- Only approved SEAC® images may be used on the dealer's website.

## MINIMUM ADVERTISED PRICE (MAP)

- MAP price represents a minimum advertised price.
- MAP designated products may not be advertised for sale at a price less than the MAP price.
- MAP products cannot be sold in conjunction with products that do not have a MAP price policy.
- Any SEAC® products featured on a website must list the price as reflected in the Price Guide (MAP price or higher).
- Dealer must not use any words "discount," "cheap," "wholesale," or any phrases such as "never undersold," "cheapest prices," "lowest prices," "beat any prices," "blow out price" in conjunction with the use of any SEAC® content.
- "Call for price" or similar sentences are not allowed when advertising SEAC® products.

## PROGRAM TERMS AND CONDITIONS

- Sales period: January 1<sup>st</sup>, 2021 through December 31<sup>st</sup>, 2021.
- Minimum Purchase Requirements: Dealers must agree to purchase a minimum of 3,500 for the period January 1, 2021 through December 31, 2021.
- Dealers that do not achieve the minimum purchase requirements will be placed in nonparticipating status, and must re-qualify by submitting an order which achieves the minimum new dealer opening requirements.

A close-up photograph of a scuba diver's face and upper body. The diver is wearing a black diving mask with 'SEAC' and 'AIDA' visible on the frame, and a black regulator with 'SEAC' on the front. They are in the water, with a rocky, green-covered cliff in the background under a clear blue sky. A white boat with 'MASSUB' is partially visible in the background to the right. The water is dark blue with some ripples and bubbles.

## DX200 ICE INT 230 BAR

## DX200 ICE DIN 300 BAR

**First Stage:**

- Made of Sand-blasted forged brass.
- High-performance balanced diaphragm design:  
The Intermediate Pressure is always constant during the dive at any depth.
- ICE Kit: fully isolates all moving parts from contact with the water, ensuring excellent thermal protection in cold water.
- Simple and fast maintenance.
- HP ports: 2
- LP ports: 4
- Replaceable stainless-steel Valve Seat: designed to offer great safety, it can be easily disassembled to make maintenance easy.

**Second Stage:**

- Made of technopolimers, elastomers, and metal componets.
- Front cover enhanced with rust-proofing and scratch-resistant Luxury Technology treatment.
- Adjustable breathing effort and Venturi effect.
- OWS System: the Cover is designed to prevent free flow even in strong currents.

## MODULAR MAX

-  EXTRA LIGHT: 3.1 KG (6.8 LBS)
-  IDEAL FOR DIVE TRAVEL
-  X4 4 METAL D-RINGS
-  CORDURA®
-  LIFT: 20.0 KG (44 LBS)
-  2 TRIM POCKETS INCLUDED
-  FULLY MODULAR
-  ADJUSTABLE HARNESS

- SEAC® Modular Max is the evolution of Modular, SEAC's rear-volume recreational BCD designed for use with dual tanks.
- Donut bladder with 44 lbs of lift in durable 1680 Denari Ballistic Nylon outside and internal air chamber in polyurethane. Features a piston inflator and two quick discharge valves arranged to make it possible to dump quickly from any position.
- Freely customizable: every part of the SEAC® Modular Max BCD is interchangeable.
- You can simply and quickly adjust the structure of the BCD and find just the right buoyancy in any situation.
- Standard connections: the backpack for the SEAC® Modular Max BCD can accommodate different bladders and backpacks thanks to its standard-gauge eyelets for fastening using straps and other fasteners. The padding prevents any irritation from clamps in contact with the back.
- Convenient for travel: SEAC® Modular Max is the BCD that fits conveniently in your luggage, making it ideal for dive vacations.
- It disassembles quickly, takes up little space, and weighs just 6.8 lbs, so you can use your own BCD, set to just how you need it, even when you travel.
- The standard equipment for the Modular Max includes: harness with removable shoulder straps and soft backpack with removable steel core, 44 lbs dual donut bladder, 2 pockets with quick weight release, 4 anodized aluminum D-Rings, and waist buckle in stainless steel.

MODULAR MAX	
PN	0420039000998A
SIZE	ONE SIZE
LIFT	20.0 (kg)   44 (lbs)
WEIGHT	3.1 (kg)   6.8 (lbs)

2 TRIM POCKETS INCLUDED

## MODULAR

-  EXTRA LIGHT: 3 KG (6.6 LBS)
-  IDEAL FOR DIVE TRAVEL
-  X4 4 METAL D-RINGS
-  CORDURA®
-  LIFT: 13.6 KG (30 LBS)
-  2 TRIM POCKETS INCLUDED
-  FULLY MODULAR
-  ADJUSTABLE HARNESS

Separated harness from air bladder.

OPTIONAL

- Freedom, made to measure: every part of the SEAC® Modular BCD is interchangeable. You can simply and quickly adjust the structure of the BCD and find just the right buoyancy in any situation.
- Standard connections: the backpack for the SEAC® Modular BCD can accommodate different bags and backpacks thanks to its standard-gauge eyelets for fastening using straps and other fasteners. The padding prevents a irritation from clamps in contact with the back.
- Convenient for travel: SEAC® Modular is the BCD that fits conveniently in your luggage, making it ideal for dive vacations. It disassembles quickly, takes up little space, and weighs just 6.6 lbs, so you can use your own BCD set to just the right measurements even when you travel.
- Basic equipment: the basic SEAC® Modular equipment includes: harness with removable shoulder straps and soft backbone with removable steel core, a 30 lbs donut double bladder, 2 quick-release pockets for weights, anodized aluminum D-rings and stainless steel waist buckle.

2 TRIM POCKETS INCLUDED

EQ PRO

- EXTRA LIGHT
- IDEAL FOR DIVE TRAVEL
- 8 METAL D-RINGS
- EASY WEIGHT SYSTEM
- 4 POCKETS INCLUDED
- COMFORT FIT
- LOW-DRAG DESIGN

- Ultra-practical harness: quick and easy to put on. Simply fasten the flat center buckle and adjust the front straps and shoulder straps.
- "Frame to back" system: the adjustments for the shoulder straps start directly from the backpack. The BCD won't warp, so the weight stays distributed correctly.
- Independent bladder: The bladder in the SEAC® EQ-PRO "slides" along the harness completely independently. When inflated, the pocket area rests comfortably along your sides, so it won't squeeze your abdominal area.
- Functional, low-drag design: even more compact bladder and a contour designed to be more hydrodynamic. Handle inside the backpack, making it easy to transport.
- Excellent fit for men and women: 3D Mesh inserts wrap fully around the shoulder straps and prevent rubbing.
- Swivel buckles adapt the harness to the female body. Available in 5 sizes.
- Dry weight (size L): 7.7 lbs (including hose).
- Rear weight pockets standard (Trim Pocket).

## UNIFLEECE

Double-layer water-repellent undersuit ideal for wearing under a drysuit. Lightweight (~ 600 g.) and breathable, it's ideal for staying warm during dives in especially cold places. The front zips from both ends to make it quick and easy to put on. The easy-access zip pockets are perfect for carrying small tools.

## SPACE 7 MM

NEW  
2021UltraStretch  
material

Feeling at ease during a dive is always a matter involving many different factors, most importantly, a comfortable wetsuit. For this reason, the Space has been developed in a warm, comfortable neoprene designed for proper stretch, regardless of body shape. Seac Space is available in many sizes, designed with specific cuts for both men and women. Donning is quick and easy even in non-optimal conditions like high temperature and high humidity. It is a one-piece wetsuit made of UltraStretch neoprene and rear zip with inner flap to ensure a barrier against water leakage. Aquastop system on wrists and ankles are provided with double neoprene cones and zippers. SEAC Space has been designed to guarantee great freedom of movement in all conditions, thanks to the embossed inserts positioned on the inside of the elbows and behind the knees. Chest and shoulder areas, the most stressed equipment friction points, have been reinforced with geometric pattern design inserts. A rubber sleeve insert has been positioned on left wrist to firmly hold your dive computer. Seac Space is available in 5 or 7 mm neoprene.

Full-face Masks

SNORKELING  
2021

## SECURITY CONTROLS

In the SEAC® laboratories all the production batches of our full-face masks are tested with specific Ansti machines for measuring the dynamic performance of human respiration, and these tests are carried out using proprietary SEAC® equipment which has been specifically developed to control the levels of CO<sub>2</sub> present in the air inhaled through the masks during the breathing process.

SEAC® has developed a series of specific tests in compliance with the values required by the following European standards:

EN 1972:2015 establishes the requirements for the design and production of snorkel tubes, limited to respiratory efforts;

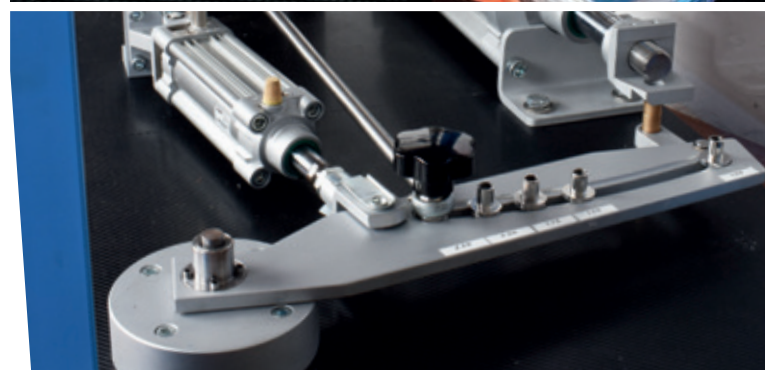

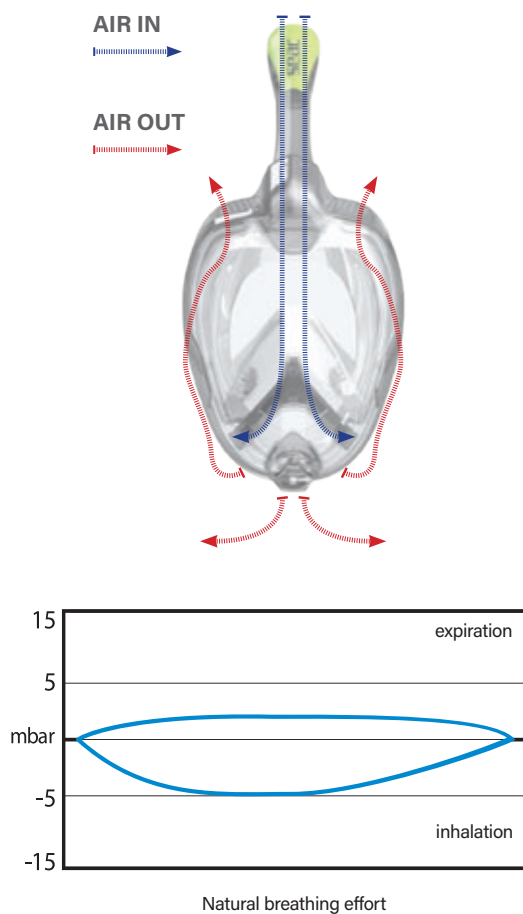

EN 16805:2015 establishes the requirements for the design and production of diving masks;

EN 136:2000 establishes the minimum requirements for the production of full respiratory protection masks, limited to the control tests of CO<sub>2</sub> in the inhaled air;

EN 250:2014 relating to compressed air self-contained breathing apparatus for open circuit underwater use and its components, limited to CO<sub>2</sub> control tests in the inhaled air.

A close-up, low-angle shot of a black Seac R5 diving torch resting on a wet, textured rock. The torch is angled from the bottom left towards the right. The handle features a white 'Seac R5' logo. The background shows a blurred ocean with white-capped waves under a bright, hazy sky. A semi-transparent dark grey horizontal band is positioned across the middle of the image, containing the text 'Knives and Lights'.

A full-page underwater photograph of a diver in a dark, textured wetsuit with 'seac' written on the chest and sleeve. The diver is wearing a hood, mask, and fins, and is swimming towards the camera. The water is clear blue, and many colorful fish are visible around the diver. A dark horizontal bar is overlaid on the left side of the image.

- Model: rigid long-blade fin designed to deliver optimal propulsion under all conditions.
- Foot pocket material: made in thermoplastic rubber, highly prized for its comfort, and designed for use with or without a neoprene booty.
- Blade material: thermoplastic technopolymer with a high modulus of elasticity. The special grey and green camouflage effect is achieved using ICS (injection color system) technology.

A freediver in a camouflage suit and mask is shown underwater, holding a speargun. The diver is positioned diagonally across the frame, with their head at the top left and legs extending towards the bottom right. The background is a clear blue ocean with some light rays visible. A dark horizontal bar is present in the middle of the image, containing the word "Spearguns".

- Barrel: circular, with 28 mm diam. cross section. Made of extruded 6060 Series Anticorodal aluminum with lower rib. Integrated shaft guide.
- Muzzle: open, with seat for two circular slings and line fastening system to lock the shaft.
- Butt: ergonomically shaped, made in dual materials and differentiated densities. Ideal for extended use. Waterproof seal in the butt, even under extreme loads, thanks to double O-ring seated on a special independent pivoting internal drum.
- Triggering mechanism: in laser-cut stainless steel with antifriction polishing on every component.
- Sling: double circular Progressive Power Red D Dyneema with specially formulated blend and coating to ensure greater resistance to abrasion and UV rays. Diameter 14.5 mm.
- Shaft: in 17-4 PH heat-treated stainless steel, Shark type with small laser-welded fins. Diameter 6.5 mm.
- Mechanism: shifted back to ensure the longest run and most power for the shaft.
- Included standard: Guun 30 m Reel (size 75/85) or Guun 50 m Reel without line (size 95/115).
- Two different handles of different sizes to adapt to any kind of hand.

NEW  
2021

## SHUTTLE POWER

**SHUTTLE POWER** version is designed for the intermediate or expert swimmer who wants to achieve a complete work-out by improving speed, muscle and heart training by swimming faster and longer.

**SHUTTLE POWER** facilitates the training of thighs and buttocks muscles, calves and lumbar as well, as to increase the whole swimmer's resistance. The advantage of using the new 100% silicone SHUTTLE is that this version guarantees an excellent kicking frequency by exploiting a movement that is extremely similar to the natural one.

SIZE	TOTAL LENGTH
34/35	280 mm
36/37	293 mm
37/38	308 mm
38/39	310 mm
40/41	313 mm
42/43	318 mm
43/44	323 mm
45/46	336 mm

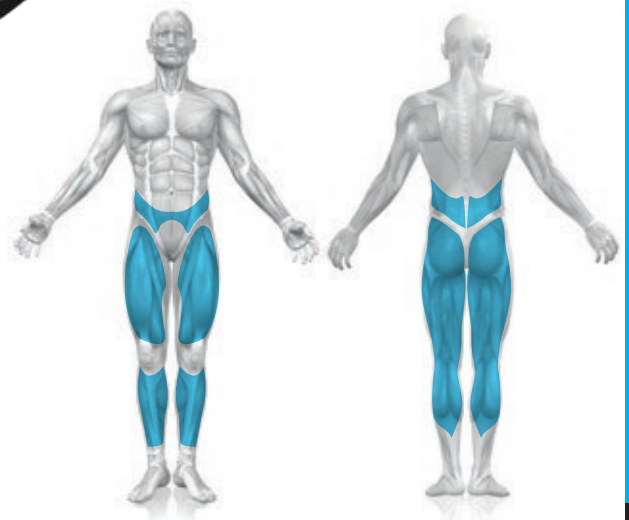

## SHUTTLE SPORT

**SHUTTLE SPORT** version is addressed to beginner, or intermediate, level swimmer who instead is looking at an additional propeller while kicking.

**SHUTTLE SPORT** is the ideal support to strengthen thighs, buttocks, calves and lower back muscles.

The advantage of using the new 100% silicone SHUTTLE is that this unique model is granting an excellent kick frequency by exploiting a movement that is extremely similar to the natural one.

## TEAM

- Small blade, full-foot fin, made in 3 materials.
- Excellent for snorkeling, and ideal for leg workouts in the pool.

PACKAGE

# BUDDY

NEW  
2021

- Low profile, hydrodynamic tube to reduce water resistance and facilitates breathing.
- Full control of freestyle stroke movement without any interruption derived by the lateral "breathing".
- Increases cardiovascular strength and lung capacity.
- Adjustable and lightweight headboard, with integrated pad, ensures a comfortable fit.
- Quick release on both sides.
- Silicone mouthpiece, reduces jaw fatigue to a minimum.
- Purge valve positioned to maximize compensation of excess water.

Quick release on both sides
